Course Details:
The Eastern Africa Consortium for Clinical Research-HIV node (EACCR2-HIV node) is inviting applications for a short course on Basic Epidemiology and Biostatistics that will be held from 27th to 31st January 2020 at KEMRI Centre for Global Health Research in Kisumu Kenya. This is a 5-day long course targeting young researchers, Medical doctors, laboratory technologists, Masters’ and Ph.D. students who need the skills in basic epidemiology and biostatistics. The course consists of intensive learning sessions and hands-on practical sessions in biostatistics delivered by some of the leading biostatisticians and epidemiologists in the field.

Eligibility:
Priority will be given to applicants from institutions that are members of the EACCR2 consortium. Applicants should at least have a Bachelor’s science degree with at least two years’ experience of working in the field of biomedical research. MSc and PhD students in the field of Epidemiology and Biostatistics are also invited to apply if the skills to be attained will have direct significant impact in their research projects.

Only participants with a recommendation letter from their node coordinator, or node coordinator representative will be considered for the course.

Course Bursary:
Selected participants will receive a bursary to cover flights from within Eastern Africa, accommodation and meals. Please note that no per-diem will be paid besides the travel and other expenses covered.

Application Procedure:
Applicants should complete the course application form attached herewith, and send along with a recommendation letter from Supervisor or Node Coordinator and detailed CV to: Ms. Saidat Namuli Musoke, via email address smusoke@uvri.go.ug and copy to jnanseko@uvri.go.ug before 20th December 2019, 04.00hrs EAT.

Only selected candidates will be contacted.
